

PROFESSIONAL SUMMARY

Computer Science undergraduate (2023–2027) with hands-on experience across full-stack web development, machine learning, and blockchain, built through two internships, a published international research paper, and multiple award-winning hackathon projects. Skilled at translating real-world problems into scalable, user-focused software, with a strong foundation in OOP, DBMS, and modern frontend frameworks. Recognized for leadership and adaptability across cross-functional, agile teams, and eager to bring the same rigor to a full-time software engineering role.

CORE SKILLS

Frontend: HTML5, CSS3, JavaScript, React
Programming Languages: Java, JavaScript
Database & Data: MySQL, MongoDB
Core Concepts: Object-Oriented Programming (OOP), DBMS
Tools & Platforms: Git, GitHub, VS Code, Render
Soft Skills: Leadership, Problem-Solving, Adaptability, Team Collaboration

INTERNSHIP EXPERIENCE

- Frontend Developer Intern | *MoviCloud Labs Pvt. Ltd. — Dindigul, India*

Jan 2026 – Apr 2026

 - Developed and shipped responsive web applications using React and Tailwind CSS, translating design mockups into pixel-accurate, mobile-first interfaces
 - Built a library of reusable, well-documented UI components that reduced duplicate code across features and ensured consistent cross-browser compatibility
 - Profiled and optimized frontend performance by reducing bundle size and improving render cycles, enhancing overall application responsiveness.
- Web Development Intern | *ApexPlanet Software Pvt. Ltd. — Remote, India*

Jun 2025 – Aug 2025

 - Designed and built responsive, accessible web pages from scratch using HTML, CSS, and JavaScript for multiple client-facing projects
 - Implemented robust client-side form validation and UI/UX enhancements that measurably improved usability and reduced user input errors
 - Deployed and maintained live projects via a personal portfolio, focusing on load-time performance optimization and clean, maintainable code

KEY PROJECTS

- EchoGuard — Biometric Voice-Based Audio Watermarking with Blockchain Ownership Verification

 - Designed and built an AI-based authentication system combining machine learning and blockchain technology to verify content ownership and provenance
 - Implemented speaker recognition models and a neural audio-watermarking pipeline to embed inaudible, tamper-resistant biometric signatures into voice recordings
 - Anchored ownership records on a blockchain ledger to guarantee immutability and improve data integrity across the verification workflow
 - Co-authored and presented the research paper at the 6th International Conference on Pervasive Computing and Social Networking (ICPCSN 2026); the project also won 2 hackathons and earned selection into the IPM Innovation Cell
- SaveVolt — Mobile App

 - Conceived, designed, and built a full mobile app end-to-end within a 12-hour hackathon (Appathon), including a real-time cost-calculation engine and an integrated AI assistant
 - Architected the app for scalability and prepared a production-ready build for Google Play Store deployment under a tight deadline
- Adaptive UI Difficulty — Tamil Learning Platform

 - Designed a behavior-driven adaptive learning system that personalizes difficulty in real time based on individual learner performance
 - Implemented real-time tracking of error rate and task-completion time, feeding a dynamic UI engine that adjusts content difficulty to match user proficiency

EDUCATION

- Bachelor of Engineering, Computer Science & Engineering | *M. Kumarasamy College of Engineering*

2023 – 2027

CGPA: 7.53
- Higher Secondary Certificate | *N S V V Matric Higher Secondary School*

2022 – 2023

Percentage: 81%

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- Certified Generative AI Professional — Oracle
- Introduction to Internet of Things — NPTEL
- Responsible & Safe AI Systems — NPTEL

ACHIEVEMENTS

- Intellix-ML Hackathon — I Prize
- Gencraft'25 Hackathon — II Prize
- Gencraft'25 SiteSpark — III Prize
- Forgia Hackathon — III Prize

CO-CURRICULAR & EXTRA-CURRICULAR ACTIVITIES

- Participated in the Mobile App Development event at Kongu Engineering College and the Code Craft event at Dr. N.G.P. Institute of Technology
- Secured 1st place (Zonal) and 2nd place (District) in Carrom, and 3rd place in Table Tennis and Dance at the college level

Areas of Interest: Web Development, DBMS
